

NEW - Pest Management

Prepare for a career as a Pest Management Technician. Work in the field to help customers solve their pest problems in residential and commercial settings.

This 16-week program consists of classroom learning paired with an externship experience. Learn industry regulations, safety, entomology and insects, use of pesticides, handling pests, customer service, route management and more. You will also complete a 40-hour externship, gaining valuable hands-on experience in the field!

At the conclusion of program, you will:

- be eligible to take the Certified Technician Exam for the state of Maryland immediately after course completion
- test to become a Registered Technician for the State of Delaware
- test to earn a National Pest Management Association certificate

This program runs from February 22 to June 7, 2022.

Classes meet:

Tuesday nights from 6 to 9 p.m

Cecil College, Elkton Station

Tuition: \$998

Register today by calling 410-287-1078 (option 6).
